Delivery:	Good					Scout:	Will Dolan		
Arm/Delivery Mechanics:	Starts tall, hands at belt. Brings hands to face before he starts motion. Short toe tap, high front side after leg lift. Crosses over to first base side after foot plant. Throws cross body with high 3/4 slot.								
Physical Description:	Physical precense on mound. Strong lower half and upper half. Room for improvement but the body plays, maybe just needs to use it a little better.	ML Comparison:		Garrett Crochet (Mechanics)					

Category	Present	Future	Velocity	Comments
Fastball *	40	50	88-92	Slower left fastball, only averages about 88-89, only around 16 IVP with a little run on it. Not a great pitch, only 27% use.
FB Movement	40	45		Doesn't move much. Can occasionally get some ride, but usally more run than ride.
Splitter *	50	50	76-78	Good pitch, 2nd best OS pitch. Good depth on the pitch, plays best against RHH. Mostly down and away action.
Slider *	40	45	78-81	Slower slider. Uses it to steal a strike and to offer a different look off CT and SW. Not a S&M pitch. Can command well.
Sweeper *	50	55	76-78	Uses this pitch the most, especially with 2K. Lifty action and stays up. Best OS pitch. Good pitch vs both RHH and LHH.
Change	40	45	77-79	Doesn't use much. Not as much depth as other CH and also doesn't run much. Offers a different look off SF rather than an out pitch.
Command	55	60		Commands all pitches well. Great feel for all pitches. Where he lacks in velo he makes up for in command of all pitches.
Control	60	70	4.2 BB %	Keeps OS down and FB in zone. Sequences well and keeps hitters off balance. 4.2 walk %. Fills up the zone.
Baseball Instincts	50	55		Good feel for pitching, knows how to sequence well. Holds runners well and keeps them guessing.
Aggressiveness	55	60	22 Picks	Goes right at guys, isn't afraid to go after guys despite slower velo. Doesn't nit pick and fills up the zone.

Summation: Futrell is a 6'5" LH SP who attacks the zone with a seven-pitch mix (FB, SNK, CT, SL, SW, CH, SF), commanding each well. Limited fastball velocity and stuff, but elite command and control keep hitters off-balance. Projects as a backend starter who can eat innings. PG: 50, FG: 50
